

RESEARCH PROPOSAL TOPICS

1. Therapy on life sustaining: is it needed for a person: who is futile?
2. Placebo treatment role
3. Avoiding animal testing
4. Contras and pros of medical marijuana
5. Is milk of cow healthy?
6. Is vegetarian useful for the health of a child?
7. Kids' vaccines: usefulness
8. Prescription drugs: does it need to be advertised to consumers?
9. Do nurses turn patients to drug addicts?
10. How standardized tests improve education?
11. How college graduates makes money?
12. Should education should be cheaper?
13. How modern technologies affect the future?
14. School and social networking
15. Schools metal detectors
16. Lesson planning: technology role
17. Managing bullies at education institutions
18. Reducing global warming
19. How to save trees and stop wasting paper
20. Can overpopulation still be managed?
21. Should films about issues on environment be produced?
22. Forests human impacts
23. Earthquakes underground effects
24. Elaborating optimal adaptation on buildings
25. Predicting impacts of hurricane

26. GMO food dangerous
27. Are social networks great for the society?
28. Do video games make children cruel and angry?
29. Is it essential to forbid using animals when it comes to entertainment?
30. Achieving the beauty standards of beauty contest
31. How consoles games influence youth?
32. Should women compete with men?
33. Television programs that should be banned
34. Fake news: how it affects the public
35. Drinking age: does it need to be lowered?
36. Adults: Do they be given the right to carry concealed handgun?
37. Enacting more gun control laws
38. Preventing Iran in developing nuclear weapons
39. Appearance of the world without war
40. Socialism: is it possible?
41. Avoiding reduction in workforce
42. Is autism a development or disease idiosyncrasy?
43. Shaping and forecasting behavioral patterns
44. Managing child violence
45. Classical music impact on work of brain
46. Effect of insomnia to health
47. Impact of depression to immune system
48. How light is used in treating cancer?
49. Racial discrimination origin
50. Anti-Semitism roots
